

COVID-19: Outbreak Management Plan

Madron Daniel (St Maddern's) C of E Primary School

Approved by:	An Baya Governing Body	Date: 14.09.21
Last reviewed on:	10.09.21	
Next review due by:	10.11.21	

1. Introduction

This plan is based on the [contingency framework for managing local outbreaks](#) of COVID-19 and the [schools operational guidance](#), provided by the Department for Education (DfE).

We will only implement some, or all, of the measures in this plan in response to recommendations provided by our local authority (LA), directors of public health (DsPH), Public Health England (PHE) health protection team or the national government.

To help manage a COVID-19 outbreak within the school. Actions will be considered when the following thresholds are met:

- There are 5 positive cases amongst pupils or staff who are likely to have mixed closely within a 10-day period
- 10% of pupils or staff who are likely to have mixed closely test positive within a 10-day period
- If a pupil or member of staff is admitted to hospital with COVID 19

It may also be necessary to implement measures:

- If COVID-19 infection rates in the community are extremely high, and other measures have failed to reduce transmission
- As part of a package of measures responding to a 'variant of concern' (VoC)
- To prevent unsustainable pressure on the NHS

2. Seeking public health advice

When one of the thresholds above is met, we will review the testing, hygiene and ventilation measures already in place.

We will also seek public health advice from a director of public health or health protection team. Hilary Tyreman or in her absence, Jenna Stobbs, will be responsible for seeking this advice, and will do so by telephoning the DfE helpline (0800 046 8687) or Cornwall and Isles of Scilly Public Health 01872 322545

3. Shielding

We will adhere to national guidance on the reintroduction of shielding, which would apply to those on the [shielded patient list \(SPL\)](#).

We will speak to individuals required to shield about additional protective measures in school or arrangements for home working or learning.

4. Baseline measures, additional action, enhanced and exceptional action

Baseline Measures in place at all times	In place and date stood up
Follow and promote public health guidance on testing, self-isolation and managing confirmed cases of COVID-19	YES from Sept 2021
Setting based contact tracing of staff cases with staff contacts reported to isolation hub (020 3743 6715)	YES from Sept

	2021
Staff should Lateral flow test twice weekly until advised otherwise on Sundays and Wednesday, reporting results to school and to NHS	YES From September 2021
Maintain appropriate cleaning regimes	YES from Sept 2021
Keep occupied spaces will ventilated	YES from Sept 2021
Appropriate use of PPE	YES from Sept 2021
Deliver strong messaging about signs and symptoms of Covid-19, isolation advice and testing to support prompt isolation of suspected cases	YES from Sept 2021
Encourage vaccination uptake for eligible students and staff	YES from Sept 2021
Promotion of PCR testing for close contacts identified by NHS Test and Trace	YES from Sept 2021

Below are the ADDITIONAL Outbreak Control Measures that St Mary's C of E School will consider when a threshold is met:

Additional Outbreak Control Measures		
Additional Measures for Consideration where Thresholds Apply	When to consider	In place and date stood up
Provide warn and inform information to identified group (e.g. class, year group, common activities group).	As standard	Yes/No Date:
Strengthened communications to encourage families (not children under 11) to undertake twice weekly LFD testing; and reinforcing advice on symptoms and case isolation	As standard and when asymptomatic testing uptake is not optimal	Yes/No Date:
Consider moving activities outdoors, including exercise, assemblies and classes	As standard when feasible (e.g. weather) with priority given to activities where large groups gather, there is contact between those who would not usually mix or where singing, shouting or exercise may be taking place	Yes/no Date:

Further improvement of ventilation indoors (where this would not significantly impact thermal comfort)	As standard, with particular focus on improving ventilation during activities where singing, shouting or exercise may be taking place	Yes/no Date:
One-off enhanced cleaning focusing on touch points and any shared equipment	As standard	Yes/no Date:
Review and reinforcement of hygiene measures	As standard, with particular support for those where maintaining hygiene standards may be difficult (for example younger cohorts)	Yes/no Date:
Promote vaccination uptake for eligible students and staff	As standard	Yes/no Date:

Below are the ENHANCED Outbreak Control Measures that may be recommended for St Mary's C of E School following a risk assessment with Cornwall Council/Public Health Team when:

- There is evidence of transmission within the setting, and additional measures will add value in reducing the risk of ongoing transmission; and/o
- There are multiple groups within the setting who meet the threshold for considering additional action (as this may indicate increased risk of transmission within the setting)

Enhanced Outbreak Control Measures		
Measures	Action	Additional planning
Increased frequency of LFD testing	If evidence of significant spread within the setting. This may include increasing the frequency of home testing to daily for staff.	<ul style="list-style-type: none"> • Advise on local processes for accessing test kits if necessary • Clear communications to parent / carers, including on school website
Promoting social distancing and reducing crowding.	<p>When evidence, or high risk of transmission between groups or where there is evidence of significant transmission within the setting. This may include reducing the number of children gathering together (for example in assemblies) and minimising pinch points in the school day</p> <p>Limit:</p> <ul style="list-style-type: none"> • whole setting activities <p>Reintroduce:</p> <ul style="list-style-type: none"> • staggered parent drop off/pick up times at primary and early years 	<p>Use previous risk assessments regarding implementation of any of these measures to adjust school management and organisation</p> <p>Plus:</p> <ul style="list-style-type: none"> - Clear communications to parent / carers, including on school website - equal access to teaching and learning for all • EHCP requirements will be met • Provision for SEND, CiN, CYP on CP Plan, and LAC will be met • Sufficient staffing capacity ensures effective curriculum delivery
Introduce methods to reduce intergroup mixing (for example	Evidence, or high risk of inter-group spread within the setting (e.g. not via siblings or out of school activities). This measure is most likely to be effective when there is substantial mixing between classes and most likely to be proportionate when implementing does not disrupt lesson planning.	

separate break times, staggered entry etc.)	Create: <ul style="list-style-type: none"> • smaller groups / bubbles Limit: <ul style="list-style-type: none"> • staff crossing between groups 	
Reducing mixing of staff e.g. by holding meetings remotely	Where there is evidence, or high risk of transmission between staff and/or low vaccination rates amongst staff. Limit / review necessity for: <ul style="list-style-type: none"> • staff face to face meetings • onsite CPD • Governor monitoring visits 	
Temporary reinstating face coverings in communal areas and/or classrooms for staff (<u>primary age children should not be advised to wear masks</u>)	Where there is high community transmission and/or high risk of transmission within the setting AND a cohort who can reasonably apply this measure. If other ventilation measures are hard to apply this may be recommended as an addition. Have clear comms: to parent/carers on your setting website on the following: <ul style="list-style-type: none"> • Who and when the wearing of face coverings will apply and for how long • How face coverings are made available to those who may not have their own • A system for the wider community to understand and facilitate exemption rules 	
Limitation of residential education visits, open days, transition/taster days, parental attendance, live performances	Where there is evidence of ongoing transmission within cohort where visits/etc planned. Limit / review necessity for: <ul style="list-style-type: none"> • residential trips • sporting events • open days, transition or taster days • parental attendance in settings and at performances • staff face to face meetings • onsite CPD • Governor etc. monitoring visits 	

Below are the EXCEPTIONAL Outbreak Control Measures that may be recommended for St Mary's C of E School in exceptional circumstances following a joint risk assessment (education and public health) via an Outbreak Control Team (OCT) meeting.

Exceptional Outbreak Control Measures		
Measures	Action	Additional planning
Attendance restrictions (see below for types of restrictions)	<p>NOTE: Any restrictions to the attendance of pupils (non-cases) may only be considered in extreme cases 'as a short-term measure and as a last resort' - where other measures have been implemented and have not broken chains of transmission</p> <p>** IMT required**</p> <p>In all circumstances, priority should continue to be given to vulnerable children and young people and children of critical workers to attend to their normal timetables.</p> <p>Where measures include attendance restrictions, DfE may advise on any other groups that</p>	

should be prioritised.	
a. Partial closure	<p>Previously schools could contact trace and ask individuals who were close contacts to self-isolate and/or move classes to remote learning as necessary.</p> <p>Contact tracing <u>in an outbreak situation</u> is now termed as 'partial closure', as legally only over 18s who have not had both vaccine doses, or those with symptoms / those who have tested positive can be asked to isolate by NHS Test and Trace and those exempt do not need to isolate.</p>
b. Full closure	<p>When transmission reaches the point that partial closures and/or staffing capacity can no longer maintain safe teaching and learning within the setting, the outbreak control process may recommend a move to remote learning for the whole school for a short period of time.</p>

Should a large number of children and/or staff need to go home and be in receipt of high quality remote learning due to stepped up measures to break a chain of infection, we will:

- Reintroduce Marazion Remote Learning Offer via *TEAMS*, including 'live' sessions via *Zoom/Teams*
- Provide food vouchers for pupils eligible for benefits-related free school meals while they are not attending because of COVID-19 isolation guidelines.
- Provide clear communications to parent/carers, including on the school website

NOTE: CYP/staff are not being asked to isolate.

Previous risk assessments / reviews of policies and procedures will be reinstated making sure that:

- There is equal access to teaching and learning for all
- Provision of appropriate IT and technical support for remote learning is effective and efficient
- EHCP requirements are met
- Provision for CiN, CYP on CP Plan, and LAC is met
- Sufficient staffing capacity ensures effective curriculum delivery

5. Attendance restrictions

Attendance restrictions will only be recommended as a last resort. If recommended, we will implement the measures in this section.

5.1 Eligibility to remain in school

In the first instance, we will stay open for:

- Vulnerable pupils
- Children of critical workers
- Reception, Year 1 and Year 2 pupils

If further restrictions are recommended, we will stay open for:

- Vulnerable pupils

› Children of critical workers

5.2 Education and support for pupils at home

All other pupils will be required to stay at home and will receive remote education.

We will aim to deliver remote education that meets the same quality and quantity of education that pupils would receive in school, as outlined in our remote learning policy.

The school will continue to provide meals or lunch parcels for pupils eligible for benefits-related free school meals while they are not attending school because of COVID-19 isolation guidelines.

Food parcels will be made available to pick up from school at a designated time.

5.3 Wraparound care

We will limit access to before and after-school activities and wraparound care during term time and the summer holidays to those that need it most.

We will communicate who will be eligible to attend once the restrictions are confirmed.

5.4 Safeguarding

We will review our child protection policy to make sure it reflects the local restrictions and remains effective.

We will aim to have a trained DSL or deputy DSL on site wherever possible.

If our DSL is not on site, Hilary Tyreman can be contacted at St Mary's Daniel C of E School. 01736 363009

If our DSL is unavailable, the deputy Sian Miles we will be on site or contactable on mobile phones.

On occasions where there is no DSL or deputy on site, a senior leader at St Mary's C of E will take responsibility for co-ordinating safeguarding on site. Safeguarding is everyone's responsibility. The MARU can be phoned on 0300 1231 116, out of hours 01208 251 300.

When vulnerable pupils are absent, we will:

- › Speak to parents/carers and, where applicable, social workers and the local authority, to work out the reason for absence
- › Encourage attendance
- › Make sure vulnerable pupils can access appropriate education and support while at home
- › Maintain contact, and check regularly that the pupil is able to access remote education provision
