

This week we are linking our prayers to the Care for Creation Lent book for children.

Today we are thinking about Can you use less plastic?

Do you remember Mazey Day last year when Golowan went Green? At Madron we made beautiful waves 'decorated' with plastic we had found from a beach clean.

We also made plastic promises...

Throughout the year children from St Mary's have attended the Climate strike protests. This was cancelled in March due to CoVID 19 but still we had a beach clean and sent a clear message to the world.

Yesterday at the child care provision we made seascapes with same messages.

Dear Lord,

Thank you for the sparkling ocean teeming with life,

Help us to protect the planet and all creation.

Amen

Today's challenge

Can you make a list of how you could use less plastic?

What might your pledges be for the future?

Can you make a sea scape with a message to help protect our oceans?

An Baya

Together we can make a difference.

A cardboard box containing a fishbowl kit. Inside, there is a black t-shirt with a colorful fish illustration, a yellow bag, a blue bag, a green bag, and a small yellow fish. A handwritten note on a piece of paper says "keep my fish safe".
